Dear Sir:

In response to the Office Action dated September 29, 1998, please consider the following:

IN THE CLAIMS

Kindly amend Claims 1, 6, 13 and 14 as follows:

A1

1. (Amended) A bowling accessory, comprising:
a mechanism for retaining the accessory to a bowler's finger;
a pad having one or more projections for contacting a bowling ball, said pad associated with said retaining mechanism, and said pad having an arcuate surface, said projections having desired configuration such that when force is exerted by the bowler on the ball, the projections flatten providing a larger surface on the ball to enhance contact with the ball.
